

The Post-graduate Program in Immunology, of the Institute of Biomedical Sciences, is pleased to invite all from our department to the seminar:

# *Inhibition of NF $\kappa$ B p65 signaling by STAT3 as a mechanism for tumor escape*

## Ana Paula Lepique

Ana earned her BS in Biological Sciences from the Universidade de São Paulo, and earned her Ms and PhD in Biochemistry from Chemistry Institute (USP). She was postdoctoral fellow in Memorial Sloan-Kettering Cancer Center, USA, and in Ludwig Institute, São Paulo. Currently, Ana is teacher and researcher in the Department of Immunology, in the Institute of Biomedical Sciences, USP, and studies immune response to tumor.

Venue: Anfiteatro Ivan da Mota e Albuquerque (ROSA)  
Edifício Biomédicas IV  
Av. Prof. Lineu Prestes, 1730 - Cidade Universitária.

**August, 7th**  
**(Wednesday) 12:00pm**
