

The Post-graduate Program in Immunology, of the Institute of Biomedical Sciences, is pleased to invite all from our department to the seminar:

Mitochondrial dysfunction and changes in high-energy compounds in different cellular models associated to hypoxia: implication to schizophrenia

Tatiana Rosenstock

TR earned her BS in Biomedicine (2001), and Ms (2004) and PhD (2008) in Pharmacology from Unifesp. She was a Post-Doc at Center for Neuroscience and Cell Biology (Portugal) and at MIT (2008-2014), and recently TR received the Rutherford Fellowship from U.Birmingham (2019). Currently TR is an Associate Professor at Dept. of Physiological Science at Santa Casa de São Paulo where she focuses on the mitochondrial dysfunction in models of neurodegenerative and neuropsychiatric disorders.

Venue: Anfiteatro Ivan da Mota e Albuquerque (ROSA)
Edifício Biomédicas IV
Av. Prof. Lineu Prestes, 1730 - Cidade Universitária.

August, 28th
(Wednesday) 12:00pm

Organizers:

Theresa Ramalho
Gustavo P. Amarante-Mendes

Informations:

Maria Eni do Sacramento Santos
