

The Post-graduate Program in Immunology, of the Institute of Biomedical Sciences, is pleased to invite all from our department to the seminar:

Immunologic Stories

Momtchilo Russo

B.S. in Medicine (1972) and Ms in Microbiology and Immunology (1978) from UNIFESP, supervised by Wilmar Dias. PhD in Immunology (1982) from USP, supervised by Mario Mariano. Postdoctoral fellow at Instituto Parteur (1986 – 1987). He was president of the Brazilian Society for Immunology (2004 – 2005) and head of the Dept. of Immunology (ICB/USP, 2005 – 2009), where he is currently full professor. His research focuses on asthma, and macrophages and eosinophils activation. MR graduated 12 MS and 21 PhDs.
