

The Post-graduate Program in Immunology, of the Institute of Biomedical Sciences, is pleased to invite all from our department to the seminar:

Neuromodulation as a novel approach for regulation of immune and metabolic dysfunction

KHALIL RAMADI

B.S. in Mechanical Engineering and Bioengineering from UPenn. M.S. in Mechanical Engineering and PhD in Biomedical Engineering and Medical Physics from MIT. Currently, postdoctoral fellow at MIT and Harvard Medical School. His research interests center around novel technologies for targeted neuromodulation.

Venue: Anfiteatro Ivan da Mota e Albuquerque (ROSA)
Edifício Biomédicas IV
Av. Prof. Lineu Prestes, 1730 - Cidade Universitária.

January 31st
(Friday) 12:00pm

Organizers

Theresa Ramalho
Gustavo P. Amarante-Mendes

Informations
