

The Post-graduate Program in Immunology, of the Institute of Biomedical Sciences, is pleased to invite all from our department to the seminar:

L-glutamine supplementation for healthy aging: a true or a lie?

André Bachi

B.S. in Biological Sciences from Univ. Metodista de São Paulo (2001). MS (2004) and PhD (2009) in Microbiology and Immunology from UNIFESP. Postdoctoral fellowship at UNIFESP and at Univ. Cruzeiro do Sul. Currently André is professor at Unisa and his research aims to investigate how exercise prevents inflammatory diseases in upper airways and how exercise affects immunosenescence.

Venue: Anfiteatro Ivan da Mota e Albuquerque (ROSA)
Edifício Biomédicas IV
Av. Prof. Lineu Prestes, 1730 - Cidade Universitária.
