

## MITOCHONDRIAL DNA DRIVES ABSCOPAL RESPONSES TO RT THAT ARE INHIBITED BY AUTOPHAGY AND CASPASES

**May 4th (Tuesday), 12pm**

Dr. Galluzzi received his Ph.D. from the University Paris Sud and did his post-doctoral training at the Gustave Roussy Comprehensive Cancer Center in France. Currently, Dr. Galluzzi is Assistant Professor of Cell Biology in Radiation Oncology with the Department of Radiation Oncology of the Weill Cornell Medical College (New York), Associate Director of the European Academy for Tumor Immunology, and Founding Member of the European Research Institute for Integrated Cellular Pathology. His research aims to elucidate the link between adaptive stress responses in cancer cells and the activation of a clinically relevant tumor-targeting immune response in the context of chemotherapy and radiation therapy.
