

HYPERMETABOLISM AFTER BURN INJURY – SOME BURNING QUESTIONS

Oct 26th (Tuesday), 12pm

Dr. Marc G Jeschke is a Senior Scientist and the Director of the Ross Tilley Burn Center at Sunnybrook Health Science Center. He is a Professor in the Department of Surgery, Department of Immunology, and the Institute of Medical Science. The focus of his work is translational research with the employment of basic and clinical research in burns. Within his laboratory he has two active groups, one focuses on stem cells and skin regeneration and the other focuses on the immunometabolism aspects of burn.

Dr. Marc G. Jeschke
