Olhe o fator de impacto

Journal's performance

Journal Impact Factor

The Journal Impact Factor (JIF) is a journal-level metric calculated from data indexed in the Web of Science Core Collection. It should be used with careful attention to the many factors that volume of publication and citations characteristics of the subject area and type of journal. The Journal Impact Factor can complement expert opinion and informed peer review. In the case is inappropriate to use a journal-level metric as a proxy measure for individual researchers, institutions, or articles. [Learn more](#)

Clique em **Publications** e depois selecione **MOST RECENT**

O número de citações de cada artigo é mencionado em **TIMES CITED**

The screenshot shows the Publons website interface. At the top, there is a navigation bar with 'publons' logo, 'BROWSE', 'COMMUNITY', 'FAQ', and a search icon. A user profile 'DB' is visible in the top right corner. Below the navigation bar, there is a 'Researchers' section with a search bar. On the left side, there is a sidebar menu with options: 'Summary', 'Metrics', 'Publications' (highlighted with a blue arrow), and 'Peer review'. The main content area displays a grid of publication cards. Each card shows a journal title, a citation count, and a 'WOS' button. For example, one card shows '(10) Brazilian Journal of Physical Therapy' with a citation count of 10. Below the grid, there is a 'Showing 10 of 65' indicator and a 'SHOW MORE' button. In the lower section, there is a 'Publication list' with '164 publications' and a 'Sort by' dropdown menu set to 'Most recent' (indicated by a blue arrow). Below the list, there is a pagination bar with page numbers 1, 2, 3, ..., 16, 17. The first publication in the list is highlighted with a blue bar and labeled 'Artigo'. Below the title, it shows the authors: 'Bragatto, Marcela M.; Florencio, Lidiane L.; Benatto, Mariana T.; ... Débora Bevilaqua-Grossi, see more' and the publication details: 'Published: 2019 in CEPHALALGIA'. To the right of the article title, the 'TIMES CITED' value is '0', which is circled in red.
